Workshop

Monday-Tuesday, April 15-16, 2019
TU Munich, Munich, Germany

Self-Awareness in Cyber-Physical Systems

- ✓ NETWORKING & COMMUNITY DEVELOPMENT
- ✓ PROMINENT SPEAKERS
- ✓ STATE OF THE ART PRESENTATIONS
- ✓ PANEL DISCUSSION
- ✓ VISIONING EXERCISE

Workshop Highlight

The main purpose of this workshop is to build a community and to try to develop a shared and communal understanding of the main concepts underlying self-awareness with respect to CPS. Currently, self-awareness is studied in a range of different communities, where the underlying assumptions, definitions and goals differ significantly. This workshop will provide a forum for reflections and in-depth discussions of the pivotal concepts of this field which will serve as a basis for building an integrated scientific community and for developing future research projects.

Organizers: A. Herkersdorf (Chair),
Dutt, Esterle, Jantsch, Lewis, Sadighi,
TaheriNejad, Tammemäe, Wild
